

AdvoCare Medical Management Services

AdvoCare was born as a new kind of managed care and medical management organization – with a team of compassionate health care professionals who recognize and can balance the human issues in care with the economic issues surrounding it. Whether it's a group health, disability, or worker's compensation issues, every medical case is managed as if it's the lone file in our system. All medical decisions are coordinated by our skilled staff with an average of over 22 years of health care experience. It is our mission to deliver significant cost containment without sacrificing responsive customer service or optimal patient care.

We are experienced at assessing, planning, coordinating, evaluating and monitoring health care to achieve outcomes. As caregivers, we understand the nuances of the health care continuum from individual disability issues to the latest advances in medical management practices and medical care.

We call it the **AdvoCare Advantage**:

- ✓ **Comprehensive medical management services**
- ✓ **State of the art, technology-enabled case management and utilization review process**
- ✓ **Designated nurse case manager**
- ✓ **Fully integrated call center**
- ✓ **Customer-centered program design**
- ✓ **People-centered response**
- ✓ **One-stop health and rehabilitation management expertise**

AdvoCare's successful case management process emanates from our ability to manage the needs of the individual and his or her employer across the entire health care continuum – from point of illness or injury to return to work and beyond.

The AdvoCare Advantage provides a cost effective, seamless, health care alternative for employers to contain health care costs effectively, while providing compassionate care to employees and their families.
